

Paul Weller – Porcelain God

3 Live Audio Recordings

The recordings listed below are those that are known to be available with the source and a quality rating, 1 being very poor and 5 being excellent. For comparison, an official live recording such as Dig The New Breed or Days Of Speed would be 5+. The number of tracks may differ from the actual number of songs played at the gig in section 2, as not all of the may have made it to tape.
